

# Invisible Vent INV100

## Application

The INV100 vent from J.A. Plast is camouflaged to look like the original roofing material, which makes it almost invisible and particularly suitable for flat roofing profiles. It is suitable as ventilation outlet from living quarters like kitchen, bathroom, and laundry room.

*Please refer to national standards.*

- For pitched roofs min. 40°
- 10,000 mm<sup>2</sup> ventilation area
- Can be manufactured for shingle profiles only

## Design

The INV100 vent is designed with a built-in water stop concealed under the roof, which diverts rainwater safely back onto the roof surface. A protective grille keeps out insects and drifting snow. Easily installed with the rest of the roof the vent presents a very discreet ventilation solution.

The FS7 and P9 adapters allow for connection of Tubivent.

## Colour and Surface

Special coloured, glossy or structured with sand or granules the vents can be supplied with a 100% colour and surface match individually adjusted to each shingle type.

## Materials

Vent and adapter: HIPS (High Impact Polystyrene).

Tubivent: PP (PolyPropylene).

## Handling

Keep in original packaging during transport.

Do not wrap and expose to heavy load during transport.

Remove plastic bag before placing in sunlight.

## Accessories

Roofing accessories supplied from J.A. Plast match roof profile, colour and surface 100%. The current product list and further information can be found on our homepage, [www.japlast.com](http://www.japlast.com).
