

# Cowl Vent LV44

## Application

LV44 is a small square vent from J.A. Plast. It fits well with flat profiles and is a very discrete solution for ventilation of the roof space and batten cavity.

*Please refer to national standards.*

2 versions:

**LV44** – for shingles and bitumen shingles

**LV44** – til 300x600 mm slate

- For shingles and slate
- For pitched roofs min. 25°
- 4,400 mm<sup>2</sup> ventilation area

## Design

LV44 comes on a base plate that fits shingles or slates.

The design directs rainwater around the ventilation opening. Furthermore, the hood is equipped with a wind spoiler for optimal protection against water ingress and a grid to protect against insects. The LV44 is easily installed with the rest of the roof for a simple and stylish solution.

## Colour and Surface

The Vent can be supplied with 100% colour and surface match. Individually customised colours with e.g. glazed, textured or coated surfaces.

## Materials

HIPS plastic (High Impact Polystyrene).

## Handling

Keep in original packaging during transport.

Do not wrap and expose to heavy load during transport.

Remove plastic bag before placing in sunlight.

*Roofing accessories supplied from J.A. Plast match roof profile, colour and surface 100%. The current product list and further information can be found on our homepage, [www.japlast.com](http://www.japlast.com).*
